

# FastTrac® GrowthVenture™

*“FastTrac™ helped us break down our issues and tackle them one by one. From how to market our business, to managing our cash flow, to recruiting and retaining top talent, we systematically addressed the top issues all businesses face whether they have been in business for a year or a decade.”*

Tricia Dempsey  
Agile Resources, Inc

*“FastTrac is the ticket from small business to big business. The practical, step-by-step approach to business planning is effective and the results sustainable through one-on-one consulting with experts from the trenches.”*

Saurel Quettan  
ICM Works

*The FastTrac® GrowthVenture™ program enabled me to design LCW Engineering, Inc. with a true vision. As a result, we have updated our business plan, enhanced our brand harmony, initiated background checks for new hires and obtained financial backing. We are making it happen.*

Loretta C. Washington  
LCW Engineering, Inc.

*“In 2005, the year I took the training, we increased gross profit and net income by 15 percent. By 2006 our revenues had nearly tripled. In 2007 net income increased by more than 60 percent over the previous year. This growth spurt put us on the Atlanta Business Chronicle’s list of 50 Fastest-Growing Private Companies in 2007.”*

Eugene “Gene” Carlton  
GC Electrical Solutions

*The Georgia SBDC and FastTrac® GrowthVenture™ has shown me "How to work on my business more than work in my business!" You can hire people to work in your business but the owner has to work on the business and mold it to where you want it to grow. We have added many more people and have increased revenues greatly over the last year. Revenues may double this year at least. FastTrac® is a must for all small business owners.*

Don Simpson  
Thrift Contracting Company
